

PLATFORM FOR INTERNATIONAL COOPERATION ON UNDOCUMENTED MIGRANTS

PICUM 2006 Annual Report

PICUM, the Platform for International Cooperation on Undocumented Migrants, is a non-governmental organization that aims to promote respect for the human rights of undocumented migrants within Europe. PICUM also seeks dialogue with organizations and networks with similar concerns in other parts of the world.

PICUM promotes respect for the basic social rights of undocumented migrants, such as the right to health care, the right to shelter, the right to education and training, the right to a minimum subsistence, the right to family life, the right to moral and physical integrity, the right to legal aid, and the right to fair labor conditions.

PICUM is based in Brussels, Belgium, and has nearly 90 affiliated members and 90 ordinary members in around 20 countries primarily in Europe as well as in other regions of the world.

PICUM's monthly newsletter on issues concerning the human rights of undocumented migrants is produced in seven languages and circulates to PICUM's network of more than 2,500 civil society organizations and individuals and beyond.

1. Monitoring and Reporting

PICUM undertakes monitoring and reporting to improve the understanding of issues related to the protection of the human rights of undocumented migrants through improved knowledge of problems, policies and practice.

In 2006, PICUM continued implementing research, monitoring and reporting activities in order to improve the understanding of roots and causes of discrimination against undocumented migrants. PICUM reported on the social

exclusion of undocumented migrants and supported the exchange of good practices regarding the protection of rights of undocumented migrants in Europe.

PICUM disseminated information on the human rights of undocumented migrants to its members, its network and to other relevant organisations through a monthly newsletter and a website updated with news, events and publications.

PICUM's Main Concerns About the Fundamental Rights of Undocumented Migrants in Europe in 2006

This report is based upon issues that were highlighted in PICUM's newsletters in 2006, including the increasing numbers of deaths at EU borders, the various barriers undocumented migrants face in accessing health care services, the erosion of the right to fair working conditions, and the lack of protection for undocumented children.

Newsletter

PICUM continues to diffuse its monthly newsletter on news items and policy developments concerning the human rights of undocumented migrants in Europe. The newsletter also includes

news items about undocumented migrants in the United States. One section is devoted to migrants who die while trying to enter the European Union or the United States. In addition, upcoming events and publications are listed.

The newsletter is sent to approximately 2,500 subscribers and beyond and is available in English and six other languages: French, Spanish, Italian, Portuguese, German and Dutch. The translations are made possible due to a network of volunteer translators based throughout Europe. The newsletter is sent to PICUM's members, to international institutions (Council of Europe, European Economic and Social Council), to policy makers (European parliamentarians, European Commission, national policy makers), to research institutions, journalists, national and

international NGOs and many local organizations.

Website

PICUM's website provides extensive information on human rights of undocumented migrants, legal instruments and international

conventions, projects and thematic research areas. In 2007, PICUM will re-design and develop its website in order to provide more coherent information, to facilitate access to relevant data, official documents, and contacts and to underline PICUM's achievements in terms of advocacy.

2. Capacity Building

PICUM aims to develop the capacities of NGOs and all other actors involved in effectively preventing and addressing discrimination against undocumented migrants.

In 2006, PICUM supported the exchange of information and good practices among members at the European level. PICUM focused its capacity-building activities on European policy development, protection of

undocumented migrant workers and promoting access the health care for undocumented migrants.

In the framework of its project on health care, PICUM organised workshops with NGOs, health professionals and local authorities to support the exchange of good practices and to define lobbying strategies to mainstream undocumented migrants into social policies at national level.

EU Project on “Access to Health Care for Undocumented Migrants”

This project aims to improve access to health care for undocumented migrants, a specific group of socially excluded migrants.

The project has increased the understanding and has encouraged partners and other local actors to participate in the Social Inclusion-Social Protection process at national and European level by providing information about the streamlined Open Method of Coordination (OMC) and how undocumented migrants could fit in as well as about the civil society consultation processes in the different partner countries.

More than 250 people have been reached through several expert meetings in Brussels, more than 90 individual

interviews and 7 networking meetings organized in the different partner countries.

Specific tools have been provided to facilitate the involvement of local actors:

- Self Description of Organisation (to help organizations to provide and systematize data)
- Reporting Template (to assist actors to frame collected information and send written submissions to the national authorities responsible for drafting the National Action Plans (NAPs))

Project partners have been provided with the names and contact details of key actors in the field of the Social Inclusion Process: National authorities responsible for drafting the NAPs, independent experts, and anti-poverty networks.

National authorities responsible for drafting the NAPs as well as the network of independent experts on social inclusion have been informed about the project (project staff have personally met them in 11 countries).

Undocumented Migrants with HIV/AIDS

In 2006, AIDS and Mobility Europe published a report entitled *How HIV-positive people with an uncertain residence status survive in Europe: You can speak!* PICUM's Chair Don Flynn wrote the preface of this publication, entitled "The ideal of migrant-friendly health care".

3. Advocacy

One of PICUM's main objectives is to mainstream undocumented migrants in European policies on human rights, justice and internal affairs, social inclusion, migration, economic development in order to make the rights of undocumented migrants acknowledged and protected at the European level.

As such, PICUM monitors and takes position on EU initiatives and papers, organises advocacy events with targeted

policy makers and participates in European networks sharing its objectives and values.

To defend undocumented migrants' human rights, in 2006 PICUM submitted comments, made presentations, and participated in seminars, conferences, specialized working groups and hearings. PICUM's advocacy was carried out in different degrees towards European and national level governmental institutions.

Membership in European NGO Networks

In 2006, PICUM was a member of the following European NGO networks:

The Social Platform:

The Social Platform promotes social justice and participatory democracy by voicing the concerns of its member organizations.

The European NGO Platform:

PICUM participates in meetings of the European NGO Platform and its migration working group. This platform is a loose network of Brussels-based NGOs working in the field of migration and asylum.

The European Platform for Migrant Workers' Rights (EPMWR):

PICUM is a member of the EPMWR, a platform established in early 2005 to promote the ratification by EU member states of the International Convention for the Protection of the Rights of All Migrant Workers and the Members of Their Families.

The European Anti-Poverty Network (EAPN):

PICUM is member of the European Anti-Poverty Network (EAPN), a representative network of non-governmental organizations (NGOs) and groups involved in the fight against poverty and social exclusion in EU Member States.

4. Awareness Raising

Changing public perception and preconceived ideas about undocumented migrants and their rights is an important aspect of PICUM's activities.

In 2006 PICUM continued its awareness-raising activities with the aim of influencing public perception about undocumented migrants and their rights. One of the objectives has been to dispel myths about undocumented migrants and promote various ways to protect them. This priority is very much linked to

priorities on exchange of information and advocacy: better information on undocumented migrants could contribute to a change of attitudes concerning undocumented migrants and could promote social change.

PICUM facilitated the exchange of information and good practices on the European level by bringing together organisations and policy makers from different European countries in thematic workshops or seminars.

PICUM Conference on *Ten Ways to Protect Undocumented Migrant Workers*

PICUM, in cooperation with the following institutions, held two events in Brussels on 23–24 March 2006 on the protection of undocumented workers:

Over the two days, more than 100 representatives of NGOs, trade unions, governmental bodies, researchers, and other actors shared experiences and ideas about how to protect undocumented workers from exploitation and abuse.

Press Release

Will undocumented migrants continue to be invisible in the new national action plans on social inclusion, health and pensions for 2006–2008?

Within the framework of its project on access to health care for undocumented migrants, PICUM launched a press release on 15 September 2006 to target undocumented migrants into the Social Inclusion–Social Protection Process on the European and national levels.

To this aim, a coordinated action will be taken by PICUM and its project partners in eleven EU member states to make undocumented migrants’ social exclusion more visible in the next set of national reports (2008–2010).

5. Global Actors on International Migration

While primarily based in Europe, PICUM's network has started to include partners in the United States, the Caribbean, and some countries in Latin America and Asia.

As a member of the Steering Committee of Migrants Rights International, PICUM has played an important role in contributing to networking of civil

society organizations on the global level that defend migrants' rights.

Also through Migrants Rights International, PICUM played a key role in the civil society parallel events that were organized in September 2006 in New York during the UN High Level Dialogue on Migration and Development.

UN High Level Dialogue on Migration and Development

The articulate dialogue that is developing within different UN agencies on the role that migration can have in the development process reached a fundamental step in September 2006 with the promotion of the United Nations High Level Dialogue on Migration and Development.

Informal Interactive Hearings

Prior to the High Level Dialogue, the United Nations held Informal Interactive Hearings with civil society organizations in New York (USA) on 12 July 2006.

PICUM submitted comments on the Report of the UN Secretary General on International Migration and Development at the Informal Interactive Hearings of the General Assembly at the UN Headquarters in New York.

PICUM was the lead civil society organization concerning undocumented migrants at the hearings.

High Level Dialogue

PICUM participated in an international working group within Migrants Rights International (MRI) to promote a human rights approach to migration within the framework of the UN's High Level Dialogue on Migration and Development in New York, 13–15 September 2006, New York (USA).

MRI's international working group undertook the following initiatives:

- Organized a parallel forum to the UNHLD on "Community Dialogue on Migration, Development and Human Rights," held on 11–15 September in New York. During the parallel forum, PICUM co-organized a workshop on "The Global Economy and Strategies

for Advancing the Rights of Undocumented Migrant Workers.”

- Held a side event on 14 September 2006 in the UN that was sponsored by the Argentinean government, entitled “Migration from a human rights perspective.
- Nominated two MRI international working group members to participate in round table discussions during the UNHLD. These representatives were two out of only twelve civil society representatives invited by the UN to engage in the round table discussions with UN Member States and UN institutions.

UNITAR Conference on “Irregular Migration”

PICUM Chair Don Flynn made presentations at a conference on “Irregular Migration,” organized by UNITAR (United Nations Institute for Training and Research), New York (USA), 30 August 2006.

PICUM’s presentations focused on “Undocumented migrants’ access to housing, health and education” and “Organizing civil society cooperation on irregular migration.

Migrant Forum in Asia Conference on Irregular Migration

PICUM Director Michele LeVoy made a presentation at a conference on “Current Perspectives and Strategies in Addressing ‘Irregular Migration,’” organized by Migrant Forum in Asia and the Singapore Trade Union Congress in Singapore, 6–7 November 2006.

PICUM’s presentation was on “Regularization Strategies of Civil Society Organizations.”

One of the focuses of the conference was the international human rights framework and undocumented migrants, and participation and networking contributed to PICUM’s publication on this issue.
